

**METHOD OF AND APPARATUS FOR MAKING AND MANIPULATING  
COUPONS IN CIGARETTE PACKING MACHINES**

**ABSTRACT OF THE DISCLOSURE**

1        Successive coupons of a series of coupons obtained  
2        as a result of repeatedly severing a web of coherent  
3        coupons are conveyed to an assembling station where the  
4        coupons are assembled with collars of the type employed  
5        in hinged lid cigarette packs. The thus assembled  
6        collars and coupons are thereupon confined between the  
7        inner and outer envelopes of successive hinged lid ciga-  
8        rette packs.
